

Section W Photography

The Clunes Show has designed a particular display panel for your photography and art work. There are 2 requirements to follow so that you exhibits can be displayed correctly.

These are the size of you photography and the right hanging for your work.

1. Photographs are to be no bigger than A4 size – 24cm x 29.7cm. They can be of a smaller size.
2. Each photograph is to be adhered to strong, unbendable A4 sized cardboard using double sided mounting tape in the corners and centre of your photograph. A smaller photograph must be adhered to A4 sized cardboard.

A4

Mounting tape squares or roll can be brought at discount stores. Strong cardboard is that used for boxes – cereal packet cardboard for example is NOT suitable.

3. Most important is the correct type of hanging.

On the back of your A4 sized cardboard adhere with double sided mounting tape a metal picture hook 1cm from the top edge of the cardboard.

The metal picture hooks can be brought in picture hanging kits from discount stores.

This is the most effective and efficient way to hang your photographic exhibit on our display panels.

The correct hanging will only enhance your work and our display. Frames and glass, sticky tape and string are not allowed as they are NOT compatible with the design of the display panels.

Photographs bigger than A4 size and/or incorrect hanging will mean disqualification.
